**EVERGREEN**  
drive to the future

It can be used in all weather conditions and is suitable for everyday driving of high quality tires, providing reliable all-season traction.

Suitable for all seasons, multiple undercuts provide full season traction in wet, dry and snowy conditions.

Walk on mud and snow, and the unique tread design provides better grip and handling.

All of the sizes have the Snowflake symbol, which indicates that the tyres have been officially approved for winter use.

## DYNACOMFORT EA719

### Economy

Reinforced shoulders help full savings and longer life.

### Safety

Central longitudinal ribs enhance outstanding driving safety, control in potential aquaplaning situations and better handling.

### Braking

The tread tip design helps increase grip and shorten the braking distance.

### Comfort

Comfort edge design helps provide a versatile balance of comfort.

### Handling

Directional tread pattern provides efficient water evacuation for excellent wet traction and improves steering response, even in the snow and ice ground.

All season Handling Comfort Safety Fuel-saving
